

Helping You to Manage REACH!

The next REACH registration deadline for substances in the tonnage bands of 1-10 tpa and 10-100 tpa is approaching quickly. Together with our clients, we identify the most advantageous registration strategies for individual or portfolios of substances and develop complete REACH registration dossiers according to agreed priorities and timings.

Preparatory Phase

- ▶ Registration strategy consulting
- ▶ Comprehensive desktop search and data quality evaluation
- ▶ Identification of waiving opportunities and RAAF-conform non-testing approaches
- ▶ Matrix-based data gap analysis
- ▶ Identification of testing needs and determination of substance-specific REACH testing costs

Registration Phase

- ▶ Study placement and monitoring
- ▶ Development of complete IUCLID registration file
- ▶ RAAF-conform read across and waiving justification(s)
- ▶ Tiered exposure modelling and risk assessments using ECHA recommended tools
- ▶ Finalisation of all documentation and submission support
- ▶ Post-submission support with ECHA or Member State authorities

About Us

Toxicologists with a Business Mind

ToxMinds BVBA is a product safety and regulatory affairs firm located in Brussels, Belgium. Our passion and motivation is the use of good science, but we also understand the reality of our tightly regulated chemicals world. With our broad industry experience, we support our customers in bringing safe, regulatory compliant and publicly acceptable products to the market.

We provide chemical safety, regulatory and product stewardship support to the following industries:

Industrial
Chemicals

Cosmetic &
Consumer Products

Biocides

Agrochemicals

Green
Biotechnology

Thanks to the international nature of our team we interact with our clients in various languages including English, German, French, Italian, Spanish, Portuguese or Hindi.
